- **React Native (App Development)**

- I've developed a React Native News App using Expo, built for Android (and compatible with iOS & Web). It features a modern UI, live news integration, and a smooth, responsive design — powered by React.js, TypeScript, and Axios for reliable performance and real-time updates.
- A cross-platform, offline-first farm management app for small and medium farmers. Hello Kisan centralizes farm, plot, labor, expense, and sales data in an intuitive dashboard with charts, reports, and essential tools, with optional cloud sync for backups and multi-device access.
